Response to Amendment

The following is in response to the amendment filed on June 30, 2005.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest an arrangement for threading a tail in a multinip calender of a paper machine, whereby the arrangement comprises the combination of features of a holding point for the tail arranged prior to the last nip, a rope carrier system for the tail up to the holding point, a cutting device at the holding point for cutting the tail running down to broke treatment, and a support device at the holding point for supporting the tail during the cutting operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed June 30, 2005 have been fully considered.

The amendment to claim 2 has overcome the rejection of claims 2 and 3 under 35 U.S.C. 112, second paragraph, set forth previously.

The amendment to claim 1 has overcome the rejections set forth previously under 35 U.S.C. 102(b) over Du Bois (US 3,139,815) and under 35 U.S.C. 103(a) over Du Bois in view of Conrad (US 5,784,955). It is recognized that Du Bois does not disclose or suggest at least the claimed features, nor any combination of Du Bois with other reference arrives at the claimed features.
